

## UTAH GUARDS WILL CAMP IN WYOMING

Between 350 and 400 Men Will Be Sent to Participate in Encampment at Fort Russell.

HAS \$6,000 FOR PURPOSE

COL. LUND EXPECTS ORGANIZATION OF FOUR COMPANIES.

Utah may send between 350 and 400 members of its militia to Fort Russell to participate in the general encampment to be held there during the coming summer. Governor Cutler received an invitation from the secretary of war a short time ago asking the state to join companies from other states in a general encampment with regular U. S. troops. The secretary of war requested estimates of the number of men Utah can send and the expenses which will be incurred in transporting them to Wyoming and return and the appropriate cost of holding them there during their stay at Fort Russell. Congress has set aside \$6,000 to defray the expense of the interstate encampment. Colonel H. M. Lund of the national guard of Utah is preparing estimates for the secretary of war.

### Money is Available.

If Utah can arrange to send 350 or 400 men each department of the militia will have a large representation. The encampment opens August 1st and closes August 31st. The different militias will stay several weeks in camp. "Utah will send a large representation to Wyoming, that much is certain," said Colonel Lund last evening. "Congress has made an appropriation of \$6,000 for the purpose. Utah will get \$2,500 of that. The different militias will stay several weeks in camp. ### Four Companies Proposed.

Several new companies may be added to the membership of the national guard of Utah. Colonel Lund announces that another company will be organized in Ogden shortly after the completion of the armory in the Junction City. Plans are under way to organize another company in Salt Lake and a third new company in Provo. Colonel Lund says considerable interest is being evinced in the southern portion of Salt Lake county and numerous queries are being received about the possibilities of organizing a company in that district. If these four proposed companies are organized the national guard of Utah will have the maximum membership—800 men. With the addition of the Ogden company the national guard of Utah will number about 600 men.

## PICTURES OF GREAT DISASTER

San Francisco Physician Shows Some Remarkable Views Taken in the Ruined City.

Dr. A. W. Ward of the college of Physicians and Surgeons of San Francisco, presented a remarkable series of pictures of the San Francisco disaster to the Y. M. C. A. auditorium last evening. The pictures were taken by the Pillsbury Picture company, which company is made up of a number of newspaper men of the city who were allowed within the fire limits during the destruction of the city. The series contained pictures taken from all points of the city before and after the earthquake and fire, both in San Francisco and at Stanford university.

Dr. Ward was enthusiastic in his praise of the work of the soldiers during and after the fire. He stated that he could not imagine the devotion of life that might have resulted had not the soldiers worked so consistently. He also referred to the system of distribution of supplies after the fire. He said that there were few who needed to go hungry at any time after the supplies began to arrive. The pictures of the city were the only ones that were earthquake proof. He stated that one thousand pounds of dynamite was exploded under the Knickerbocker building in an attempt to destroy the structure. However, the steel material withstood the explosion and the building was not damaged to any great extent. A clear understanding of the result of the earthquake was shown in the picture taken near the postoffice in which place the ground was shown to have sunk between three and four feet. The lecture was given to the benefit of the Y. M. C. A. relief fund, and will be repeated again this evening.

Persons receiving these prizes will be entitled to a credit on purchases of real estate from a member of the association. These prizes will be transferable, so they will be of value even if the persons securing them do not wish to purchase property themselves.

A committee will work on the details of the general programme, which will be given out for publication in a short time.
